

On this model hooks and handrails are optionally available

Description

The ladder runs on a track of aluminum through a trolley with joint.
The trolley also allows you to adjust the inclination of the ladder as needed and according to the available spaces.
The ladder can slide on a linear or a curvilinear route.
Thanks to the nylon wheels, the movement results homogeneous, continuous and silent even in the curves.
The ladder can be moved only in resting position.
The steps and the aluminum attacks make it very solid and durable.
It can be applied on any furniture, wall or shelf.

- It is available in two versions:
- F12 with rungs 35x24 mm
 - F12/P with steps 95x23 mm

STEPS: WELD FREE AND RIVETING FREE

Technical Data

WEIGHT CAPACITY: 150 kg
(weight related to a person with tools)
FRAMES: aluminum 65x30 mm
WHEELS: rubber anti trace ø 100 mm
STEPS: aluminum 95x23 mm in the version F12/P
RUNGS: aluminum 35x24 mm in the version F12
TOP WIDTH:
• Version F12 = 440 mm
• Version F12/P = 440 mm
SAFETY STANDARD:
D. Lgs. n° 81/2008

A. Step with joint
B. Foot with wheel
C. Curvilinear route
