

To optimize transport the ladder can be supplied disassembled

Description

The ladder is made of stainless steel. The platform and the steps are in anti slip aluminum. The ladder is provided with handrail.
It is particularly indicated for overcoming fixed obstacles or for controlling on board of installations of production processes.
On request there is the possibility to have ground fixing plates or 150 mm diameter rotating front wheels with brake.

STEPS: they are mounted on aluminum die-casted supports with rungs and anti-torsion groove and they are fixed onto the frames.
