

This model can also be supplied with front trolley

Description

The ladder runs on a track of aluminum through a trolley with joint. The trolley allows linear movements thanks to 12 ball bearings and it can be blocked by a hand wheel. It is built with stainless steel frame, anti-slip aluminum steps and platform and it is equipped with handrail. It can be applied on any furniture, wall or shelf. For safe use the ladder is provided with a steel front gate manually activated. For a linear sliding of the ladder it is recommended to apply a lower sliding kit to the step section frame.

STEPS: they are mounted on aluminum die-casted supports with rungs and anti-torsion groove and they are fixed onto the frames.
WELD FREE AND RIVETING FREE

Technical Data

WEIGHT CAPACITY: 150 kg
(weight related to a person with tools)
FRAMES: stainless steel
(60x20 mm + 40x20 mm + 30x15 mm)
PLATFORM: anti-slip aluminum
490x490 mm
WHEELS: ø 100 mm with device
STEPS: aluminum 150x23 mm
TOP WIDTH: 490 mm
SAFETY STANDARD:
D. Lgs. n° 81/2008
